

# Data Management Consultant (m/f/d) in SAP Financial Services

[ADWEKO](#) Athens, Attiki, Greece Hybrid

## About the job

### YOUR START WITH ADWEKO

As a Data Management Consultant in SAP Financial Services, you will be involved in large scale implementations in major corporations of the financial sector, using cutting-edge technology of the leading software vendors. On engagements, you will work with experienced teams of technical consultants from across the globe to support our clients and partners through large scale finance transformations.

### KEY RESPONSIBILITIES

- Design and configuration of SAP Data Management applications (e.g., BW4HANA, BW on HANA, HANA SDI, SAP BI Data Services, Cloud Platform Integration - DS) to client specifications.
- Design and implementing reporting solutions in SAP Analytics Cloud and other SAP BI tools.
- Analysis of client business and functional requirements and translation to technical requirements.
- Ability to actively participate and contribute to design workshops along with senior resources.
- Creation of testing scenarios and expected outcomes, execution, and documentation of testing results (e.g., system integration, user acceptance, performance).

### WO WE ARE LOOKING FOR

We are looking for individuals who will help, shape, and define the company - people who question things and want to make a difference. We are after all Consultants interested in the conception and technical implementation of complex IT solutions in the area of SAP Financial Services.

- Bachelor's or Master's degree in computer science, information technology, engineering, Finance, Economics, Banking, mathematics, or equivalent education
- Experience in data modeling, ETL development, reporting solutions and SQL
- First experience in Data Management Area, preferably in the Financial Services sector.

- Proficient in the English language, including the ability to listen, understand, read and communicate effectively both in writing and verbally in a professional environment
- Military obligations fulfilled for male candidates

#### **Nice-to-have Skills:**

- Experience in SAP (S/4) HANA, FPSL, FSDM BW or ABAP
- Knowledge in Accounting, Insurance and/or Banking sector
- Basic knowledge in accounting, cost allocation, transfer pricing, budget and planning

### **YOUR BENEFITS**

#### **Continuing education and training**

Do you value training and development opportunities for your own advancement? We provide our ADWEKOs with an annual training program with internal and external training opportunities and cover any training costs incurred.

#### **Feedback culture**

Our feedback culture consists, among other things, of our 100-day talks, management feedback and the Great Place to Work employee survey. With ADWEK♥Cares4U, we have also created a trust center.

#### **Mobile work**

Whether at the project site, in the office or at home: Our ADWEKO can work flexibly wherever it makes the most sense in the respective situation.

#### **State-of-the-art IT infrastructure**

Various systems for the implementation of development, test and demo scenarios are available to you for both project planning and further training.

## **EQUAL OPPORTUNITY EMPLOYER**

ADWEKO is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status
