

Junior Full Stack Software Developer

It is an exciting time for us, as we are growing our team across all of our core departments. Join an experienced team of software developers implementing mission critical IT solutions for large size organizations in various sectors (including law enforcement & justice, asylum & migration, social security, lands and town planning, financial services, insurance, etc) in Cyprus and abroad.

You will have the opportunity to expand your knowledge in software development by participating in large scale implementation projects with an assigned tech team and through the guidance and coaching of your team leader and the software architects of the company.

Qualifications

- University / College graduate in an Information Technology related field
- Web application development knowledge
- Knowledge of some of the following will be considered an advantage: Netbeans/ Visual Studio, Java / C#, Glassfish/ IIS, HTML / Javascript / CSS, Oracle / MySQL/ MSSQL
- Excellent knowledge of both English and Greek languages

Skills & Competencies

- Ability to understand and transform business requirements into software
- Strong communication and interpersonal skills
- Attention to detail
- Ability to work independently and as a member of a project team
- Ability to consistently meet project deadlines

Benefits

A competitive remuneration and benefits package including provident fund, life and medical insurance will be offered to the successful candidate, based on qualifications and experience.

About NetU

NetU is a leading IT solutions and services organization in the Eastern Mediterranean region with offices in Cyprus and Greece. Since its founding in 1991, has been consistently selected by medium and large organizations to be their IT business partner, to help them achieve their corporate objectives and obtain a competitive advantage. By identifying ways to seamlessly integrate business processes and technology, NetU empowers its customers to reap the benefits of IT; whether investing for the first time, upgrading or optimizing existing systems. Cultivating co-operative rather than exclusive relationships with market leaders enables us to recommend and deliver the most solution, yielding the highest return. Today is recognized as a major Integrator in the region and has developed strong local and international activity. As such, it should come as no surprise that our customers include the largest and most successful organizations in the region.
